

FRIONETT® ACTIV'

Non-contractual photo

INTRODUCTION

Frionett® Activ' is a disinfecting, degreasing, and deodorising (fresh scent) cleanser intended for cleaning refrigeration and air-conditioning equipment (fans, evaporators, interior units, etc.). Formulated to combat bacteria and fungi, its disinfecting action is particularly suited to efficiently treating heat exchangers.

There are four versions :

- Frionett® Activ' RTU**: ready-to-use product
- Frionett® Activ' 5 L** : concentrated product ; must be diluted
- Frionett® Activ' Foam** : ready-to-use aerosol foam
- Frionett® Activ' One Shot** : one-time ready-to-use aerosol

PROPERTIES

	Frionett® Activ' RTU	Frionett® Activ' 5L	Frionett® Activ' Foam	Frionett® Activ' One Shot
Appearance	Colourless liquid		Colourless foam	Colourless liquid
Scent	Fresh scent			
Density at 20°C	1.000	1.005	1.001	< 1
Concentrated pH	10.7	10.9	Non applicable

Frionett® Activ'

climalife®

FRIONETT® ACTIV' FOAM (REF.7379+7380)

Non-contractual photo

500 ml Aerosol

USAGE

Frionett® Activ' Foam is a ready-to-use disinfecting, deodorising and degreasing active foam that adheres to the surface to be cleaned. Shake the aerosol then spray the product uniformly at 20 cm from the surface to be treated, covering the entire surface. Use upright with the valve on top. Rinse with water if likely to come into contact with food. Repeat as necessary.

PRECAUTIONS FOR USE

In the event of cleanser-sensitive media, perform a prior compatibility test.
Extremely flammable.
Use in a well-ventilated area.
See the safety data sheet.

FRIONETT® ACTIV' ONE SHOT (REF.7377+7378)

Non-contractual photo

150ml Aerosol

UTILISATION

Frionett® Activ' One Shot is a disinfecting and deodorising formula used for the treatment of ventilation ducts and for the purification of enclosed spaces.

After pressing the aerosol button, the product will diffuse automatically throughout the area to be cleaned. To purify enclosed spaces and to clean ducts, shake well before pressing the button, start the fan on minimum level and cold position (for the cleaning of ventilation ducts). Leave the room immediately.

Allow to act for 15 minutes and ventilate for 30 minutes before re-entering the room.

One dose can treat up to 50 to 150 m³ to disinfect the atmosphere.

PRECAUTIONS FOR USE

Extremely flammable and irritating.
Use in a well-ventilated area.
See the safety data sheet.

BACTERICIDE AND FUNGICIDE ACTIONS

Application time : see the standards mentioned

Frionett® Activ' One Shot :

Bactericide : EN 1276
(Pseudomonas aeruginosa, Escherichia coli, Staphylococcus aureus, Enterococcus hirae)

Fungicide: EN 1650
(Aspergillus Niger, Candida albicans)
